## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

I have asked for years for our village to be the same as neighbouring towns. Between the very young and the elderly I think it is sorely needed. 20mph kills less people.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

**Please explain the reasons for your response**

If left to individual councils it may or may not happen.

Q3. What do you think would be the main advantages, if any, of the proposal?

Less fatal or serious injuries.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

No disadvantages. Lower speed, leave earlier. No problem.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Humps in road. Narrowing of roads.
