Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

I live in a rural village and although we are well within a 30mph speed limit, cars, lorries and vans and buses drive past my house at speeds upwards of 50mph. My front gate opens onto the road with no pavement where I walk my children to school. Any initiative to reduce speeds in rural villages gets my full support.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

Pedestrian / child safety.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Driver frustration.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Signage that displays driver speed on approach.
Obstacles that require vehicles to reduce speed and drive around such as single lane carriage ways or chicane type obstacles.
Speed bumps - although these add noise and don't always slow vehicles.

Please explain the reasons for your response
Signage will come with cost for council/government.

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

No Response

Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Neutral (neither positive nor negative)

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

Not applicable

Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Yes
