Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

I think a 20 mph is a excellent idea as our area & school has a 30mph zone with flashing lights but so many drivers do not take note so the 20zones will give children & the elderly more safer options to cross the roads

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Yes (if so, please explain below)

Please explain the reasons for your response

It could be a public vote & made public on news channels & newspapers & chat shows that have high viewing

Q3. What do you think would be the main advantages, if any, of the proposal?

Less risks of young drivers doing 60mph in built up areas, safer road safety for children, elderly ect:

Q4. What do you think would be the main disadvantages, if any, of the proposal?

As it stands at the moment not many drivers adere to the conditions of road markings speed zones

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Speed cameras that automatically send out fines to drivers that do not adere with the conditions

Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
Scottish Government				X		
Local Authorities		X				
Motorists			X			
Other						X

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

Police Scotland						
----------------------------	--	--	--	--	--	--

Please explain the reasons for your response

It's obvious that cost would occur to update signage, cameras and so on, but the cost of injury or hurt on the road either in car injury or on road injury would be significantly reduced

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

Basically safer all round

Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Neutral (neither positive nor negative)

Please explain the reasons for your response

I should not affect anyone in the kind of relation

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

N/A

Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Yes

Please explain the reasons for your response:

It's really just updating what's already in place

Page 17: General

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

Good luck
