Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

I live in G3 glasgow, there's no way cars can do 30mph with all the traffic. I think it's high time cars were restricted down so they stop causing as many road deaths and start thinking that cycling or walking aren't so bad.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

No

Please explain the reasons for your response

Need legislation. Councils will continue I think the car is kind even tho 50% of people in my ward do not own a car.

Q3. What do you think would be the main advantages, if any, of the proposal?

Reducing road death.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

None.

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

use average speed cameras over long stretches to deter people from speeding.

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

Police Scotland	
Please explain the reasons for your response Will be good for council as less spent on signage.	-
Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?	
Modal shift. Makes people look at the train sailing past and think of using that instead.

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?
