

# Proposed Restricted Roads (20mph Limit) (Scotland) Bill

## Page 2: About you

Are you responding as an individual or on behalf of an organisation?

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Please select the category which best describes your organisation

*No Response*

Please choose one of the following; if you choose the first option, please provide your name or the name of your organisation as you wish it to be published.

I would like this response to be anonymous (the response may be published, but no name)

Please insert your name or the name of your organisation. If you choose the first option above, this should be the name as you wish it to be published. If you choose the second or third option, a name is still required, but it will not be published.

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number. We will not publish these details.

## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Partially opposed

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

I agree full that the 20's plenty zones work well and could be extended to other areas where necessary but I do not agree on a blanket 20mph limit, I think the signs tht are adopted in some areas that give a uncalibrated speed are a good deterrent to keeping the speed within 30mph. Cars are more efficient than when the 30mph limits were brought in how ever many years ago (better brakes etc). I also feel putting in a 20mph blanket limit will be more dangerous as people will be ignorant to the fact and we will end up with a percentage of people doing 20, a percentage doing 30 and a lot inbetween so you will find frustration building in the drivers and it will be riskier for pedestrians to cross roads as they will not know of cars closing speed is it 20/30/30+. also I do not believe we have the policing levels to enforce it, In West Lothian i can't think the last time I seen a police traffic car in town.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Yes (if so, please explain below)

**Please explain the reasons for your response**

extend and add 20mph zones as required. additional speed warning signs for 30mph zones

Q3. What do you think would be the main advantages, if any, of the proposal?

none

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Confusion, ignorance of new limits

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

More visible policing (not the speed camera vans)

## Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure
Scottish Government	X					

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

<b>Local Authorities</b>		X				
<b>Motorists</b>				X		
<b>Other</b>						
<b>Police Scotland</b>						

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

none

## Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Neutral (neither positive nor negative)

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

*No Response*

## Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

No

## Page 17: General

Q11. Do you have any other comments or suggestions on the proposal to establish a 20mph default speed limit on restricted roads?

no
