Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

I support 20mph as default speed limit because of the significant quality of life improvements and as a cost-saving exercise so as to avoid the expense of rolling out 20mph speed limit areas which are not the default. As a pedestrian and bike user I appreciate the safety and more human-scale aspects of 20mph roads. As a driver I appreciate that when I drive at a safer, slower and more environmentally-friendly speed, that I am backed up by legislation which protects me from impatient and aggressive drivers. As a resident, I appreciate the better air quality and reduced noise of 20mph roads. This should be the default for roads in Scotland.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

Reduce emissions
Better, safer driving
Money saving
Friendlier road landscapes

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Policing

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.
