Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Partially supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

To be frank, the issue does not appear to be of great interest to parents. Those who have expressed an opinion agree that 20MPH should be enforced on the roads nearest schools. Outside of that there is no consensus. It would be useful to hear of any case studies showing the impact of speed reduction measures.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

Improved road safety around schools

Q4. What do you think would be the main disadvantages, if any, of the proposal?

Possible traffic congestions

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

No Response
