Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Please explain the reasons for your response

Our school is next to a busy road and the speed cars come past is ridiculous. we have asked for this to be monitored previously however it has been sporadic. Anything that can be done to slow the cars down is positive.

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

Child safety.

Q4. What do you think would be the main disadvantages, if any, of the proposal?

No Response

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

Police enforcement is required and traffic wardens would be a great addition. The main road at our school is already a 20 zone in school hours but this makes no difference due to there being no consequence for speeding. We also have cars being parked (abandoned) on corners with double yellow lines which decrease visibility - all in all it's an accident waiting to happen, however we get little or no support from our council when raising these issues.
