## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Partially supportive

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

**Please explain the reasons for your response**

We think it is a good idea as long as it is in built up residential areas and not in areas such as our main roads (Maryhill Road) we also feel it would be beneficial to review Balmore Road as there have been 3 deaths along that road due to speeding

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

**Please explain the reasons for your response**

we feel that action must be taken in areas such as broughton road in maryhill where residents have complained about speeding cars yet the local council are unwilling to provide speed bumps. the local community which we have consulted with are in support

Q3. What do you think would be the main advantages, if any, of the proposal?

safer roads  
less congestion  
less noise pollution

Q4. What do you think would be the main disadvantages, if any, of the proposal?

people could get frustrated at having to slow down on longer roads

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

signage, speed cameras

## Page 12: Financial implications

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

	Significant increase in cost	Some increase in cost	Broadly cost-neutral	Some reduction in cost	Significant reduction in cost	Unsure

Local Authorities		X				

Q6. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have?

<b>Motorists</b>			X			
<b>Other</b>						
<b>Police Scotland</b>						

**Please explain the reasons for your response**

i think when implemented the cost could be balanced by those who break speed limits, paying therefore for the proposal

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

people in built up areas will feel safer. we have areas which are built up and have been contacted about people going round corners quite fast. this may improve this

## Page 14: Equalities

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Neutral (neither positive nor negative)

**Please explain the reasons for your response**

I dont think it will affect those in protected groups

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

/

## Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Yes

**Please explain the reasons for your response:**
