## Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposal to replace the current 30mph default speed limit on restricted roads with a 20mph limit.

Fully Supportive

Q2. Could the aims of this proposal be better delivered in another way (without a Bill in the Scottish Parliament)?

Unsure

Q3. What do you think would be the main advantages, if any, of the proposal?

Safer roads around our schools. We do not have any 20mph limit outside our school. We have to cross the road from the car park to the main school gate. There is no crossing and no speed limit control. The implied 30mph zone only starts at the school gate - up until the school gate, drivers could be going at 60mph!!

Q4. What do you think would be the main disadvantages, if any, of the proposal?

none

Q5. What other measures do you think would be needed to maximise compliance with the new national 20mph speed limit on restricted roads, for example in relation to advertising signage and police enforcement.

signage.

Q7. Do you believe there will be any other benefits to reducing the speed limit from 30mph to 20mph?

Parents will feel safer being able to walk to school. Less likely to drive their children. All the health benefits of walking and not taking a car.

Q8. What overall impact is the proposed Bill likely to have on the following protected groups (under the Equality Act 2010): race, disability, sex, gender re-assignment, age, religion and belief, sexual orientation, marriage and civil partnership, pregnancy and maternity?

Neutral (neither positive nor negative)

Q9. Could any negative impact of the proposed Bill on any of these protected groups be minimised or avoided?

*No Response*

## Page 16: Sustainability of the proposal

Q10. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impact?

Unsure
