Biodiversity

Invest in 20 minute Communities
 Air Quality - measure and improve
 Schools - reduce plastic and food waste
 Transport - 20 is plenty
 Energy - prioritise renewable energy
 Biodiversity - create more wildlife corridors

Perth & Kinross Greens

Invest in 20 minute Communities

New investment in P&K to be used for the sustainable development of villages, towns and Perth city, ensuring that communities have services within a 20 minute walk, with all links to services being safe for cycling.

Transport - 20 is Plenty

Twenty is Plenty: Target to introduce 20mph in ALL residential areas in PKC within 4 years.

Air quality

PKC to install air quality monitors in all schools, and produce plans for improving air quality in the vicinity of those showing air pollution.

Biodiversity

We will promote green connectivity networks utilising woodlands, wetlands, open spaces eg Beelines, Buglife, wild life corridors

Schools

Reduce plastic and food waste. PKC to collect food waste from schools.

Energy & housing

Increase Renewable energy generation on PKC owned buildings and land.
